go beyond and
create a fashionable lifestyle**

Creating a fashionable connection between cultures, lifestyles and generations...

Rupa, is a vanguard of the fashionable preferences of more than millions. At our core and in our deepest essence, we enrich and expand fashion quotient in multiple trends and styles. From inner comfort to outer fashionable garments. From casual clothing to specialized winter wear. From mens wear to women wear to children wear.

We strive to create a world where imaginations are boundless, where it is not about the rules, but about suspense and surprise. Where it is not about being the voice, but about spreading the world. Where it is not about the boundaries, but about going beyond them.

Founders' Statement

“The pursuit towards attaining excellence in fashion is ever-demanding and never-ending”

Rupa is a pioneer in improvising its process to optimize its operational efficiency to achieve excellence in fashion and comfort. The Company is focusing to restructure its business processes in all streams from sales distribution, marketing, production, celebrity endorsement, human resource development, new business initiatives & trademark protection for continued growth and development.

FY 2016-17 has been another year of meaningful progress towards our objective of being the best innerwear company in India. During the year under review, we maintained focus on two long-term growth strategies – enhance our core business and expanding the premium vertical of our product portfolio to newer destinations, which has resulted in strong value creation. We are doing all of this while upholding our unwavering commitment to deliver profits.

The existing landscape

Retailing in Indian landscape is nothing new, with small and big stores in every city – whether Tier I, II, III and even Tier IV. But with the advent of large format retail stores and branding of products through various modes of media, consumer sentiments have started shifting to products which not only offer value in terms of comfort & cost, but also in terms of qualitative brand aspiration. Innerwear products have now become a style quotient. Branded innerwear products are becoming a staple product for every wardrobe in India .

Our premeditated initiatives

We are fairly optimistic about the prospects of the domestic innerwear industry, which has always been a guiding force towards the expansion of our Company with new products and newer geographies. We feel proud that one of our Wholly-owned Subsidiary (WOS) has entered into exclusive licensing agreements with French Connection Limited to develop, manufacture, market and sell their innerwear and related products with the brand name 'FCUK' in India and with Fruit of the Loom, INC, a New York Corporation (WOS of Berkshire Hathaway Company), to manufacture, distribute, advertise and sell

innerwear and outerwear products for men, boys, women, girls and toddler in India, under their brand names & marks, 'Fruit of the Loom'. These strategic collaborations of our WOS would give Rupa group an upper hand in the ever demanding premium and super-premium innerwear, casual wear and fashion wear markets, domestically.

Tier II and below cities are now becoming a catalyst of growth of the Indian economy and they are seeing a paradigm shift in the consumer sentiments and behaviors. We have always focused at the niche, and with same vision, we are adding new dealers and stores in such towns and cities to gain the maximum.

We have with us on board leading celebrities, like, Hrithik Roshan, Ranveer Singh, Siddharth Malhotra and Bipasha Basu to endorse our products.

With these initiatives, we are driving productivity to improve our overall competitiveness. These changes will make us more competitive in the marketplace – improving our agility and enabling us to focus on innovation.

Sense of satisfaction

The increasing relevance of our brands and their global acceptance is a outcome of our belief that fashion for a cause is a people friendly proposition that will find far reaching acceptance. With innovative designs, improved & integrated manufacturing facilities, marketing, expanded network of retail outlets, financial strength and managerial bandwidth to operate in multiple and diverse geographies, we are confident to achieve our strategic vision. Our focus on delivering with the above strategies is a key driver of our continued growth and development. Despite the volatile geo-political environment, we remain committed to drive the business towards delivering consistent, competitive, profitable and responsible growth. Our strong fiscal position and efficient cost structure enable us to become a sustainable value creator for shareholders. We delivered a competitive total return to our shareholders both in the short and long term. We also proposed a dividend of ₹2.75 per share (i.e. 275%) for FY 2016-17.

Looking to future

Going forward, we believe that the introduction of the Goods and Services Tax (GST) will not only address structural taxation bottlenecks that impede the free movement of goods between states and reduce our overall cost structure, but also reduce transit time in getting products from their points of origin to consumption. Plus, in a highly unorganised innerwear industry with 50% market share going to such players, GST is a boon for company like ours which would make us more competitive. Post implementation, we believe that not only the manufacturing cost would reduce, but we would also get set-off on service tax towards advertisement expenses.

Message to stakeholders

“Rupa” is geared for greater success and our people are inspired to build a brand that the stakeholders can rely upon. We will continue to invest in enhancing the skills of our people, so that we can continue to deliver products that are in line with international standards.

As responsible corporate citizens, we promote various community well-being projects and programmes, directly or indirectly and through the Rupa Foundation. The Foundation works in the realms of healthcare, education and community development amongst others. We are steadfast to build a company which consistently grows in step with aspirational India, and we seek the support of all our stakeholders in this undertaking.

'Rupa' is not only a Company of strongly-held convictions, but also with the ability and willingness to act on those convictions to maintain its value proposition with all its stakeholders.

On behalf of the entire leadership team at Rupa, we thank our people and all those who have a stake in our progress.

POWERFUL BRAND REPUTATION

Over the years, Rupa has demonstrated an ability to understand the unmet needs of a customer and respond to changing consumer preferences. We believe that a solid brand identity can tell an important story, set expectations, gain attention and foster relationships. Rupa has created brands that achieved success and emerged as a domestic market leader.

A brand story can transform an intangible idea into a concrete asset. With this our continued thrust of marketing through leading celebrities, in-movie advertising, featuring the brand through sporting activities, innovative packaging also led to the acceptance of our products - in both urban and rural consumers mind-set.

Fashion is Freedom

by moving ahead with dedicated pursuit and positivity

During the 3rd quarter of FY 2016-17, the Indian economy faced one of its most testing periods owing to demonetisation, resulting in consumption emerging as the biggest casualty. But we at 'Rupa' always believe that it's the aspirations of the people which drives growth and sustains momentum, thereby placing us ahead in the marketplace. Over the years, we have developed the competencies to focus on business activities that enable us provide higher returns to our stakeholders.

Fashion is Freedom

by meeting the quality standards

At Rupa, a proverb always fits our style – “Quality is never an accident; it is always the result of continuous improvisation process, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives”.

Offering an extensive range of fashionable, yet environment friendly knitted garments at the best prices sets us apart. The innerwear, thermals and hosiery products are made through superior and natural fibers that are grown in sustainable farming methods.

We are the first licensee of SUPIMA in India (in innerwear category). Some of our products are manufactured from 100% American Pima Cotton (best quality cotton) which carries better wearing life and without any itching feel.

The quality, fit and finish of the fashionable knitwear garments manufactured by us meets international standards. We believe that the large share of unorganised retail and unbranded products combined with a young demography presents a significant long term growth prospects for the Company.

At Rupa, our performance over the years has resulted in us being bestowed with several accreditations, awards and recognitions thereby vindicating the value of our brand. We have been accredited with ISO 9001:2008 from BSI India, reflecting globally benchmarked manufacturing standards. Rupa has been in the Limca Book of Records for 14 years, being the largest manufacturer of Hosiery products in India. It has been awarded as the 'Best Corporate Brand 2016' by The Economic Times.

WHEN FASHION IS FREEDOM AND FREEDOM BECOMES PASSION, THEN RUPA IS THE ULTIMATE DESTINATION

Across large parts of India, an unprecedented dynamism and optimism is palpable. India's upwardly mobile society is making lifestyle choices that were unimaginable a few decades ago. Economic empowerment and rising aspirations are changing perspectives about lifestyle.

Rupa is one of the leader not only due to its manufacturing muscle but also its distribution network. Simply stated, the Company possesses one of the widest and largest sales and distribution network for innerwear and fashionwear products. Our wide network of distribution channels helps us to remain in touch with our diverse and expanding customer base. This network also keeps us abreast about the changing requirements. As a result: 'Anywhere, anytime' product availability.

We also view potential markets through the prism of our rich experience and expertise. So is the appeal of our innerwear, casualwear and fashionwear products that we started exporting them at international shores.

Fashion is Freedom

by raising the bar, everyday and every time

In an increasingly competitive industry scenario, it is not only important to strengthen existing areas of competence but also build new ones. A stronger exposure in the existing areas will always derive growth, but the creation of new competence will replenish the topline with complementary revenue streams.

Strengthening continuously

Being in the fashion business, the Company needs to keep innovating to meet the customer's expectations and deliver high quality products at a reasonable price and in line with changing trends. Rupa is uniquely placed in the sector with an integrated business model that encompasses the complete value chain of design, manufacturing and sourcing, distribution, logistics and retailing. The Company has state of the art manufacturing facilities that ensure quality and timely deliveries. This unique business model, along with a strong and committed focus on its power brands, has helped the Company to sustain the challenging business environment and capitalise on the consumer confidence.

Creating more visibility

Our customer outreach strategy is based on driving activities aggressively to create visibility and buzz for the brands in the market. Our mass marketing strategy involves chartering new geographies, with the approach to educate consumers, and supplement the efforts by installing in-shop displays and signage, used innovative strategies to strike a emotional chord with different communities of our dealers, rolled out wall paintings across key markets to grow our brand prominence, enhanced OOH and transit media usage across key markets through billboards, bus branding, tram branding, pole kiosks and cut outs, among others.

Reinforcing our offering

We created a strong digital presence to connect with a large consumer base. We developed an e-commerce website (<https://www.rupaonlinestore.com>) to provide a refreshing online experience to customers. We grew social media prominence (Facebook, Twitter, Google Plus, Youtube, Instagram, Pinterest and LinkedIn) through regular updates. We have partnered with leading e-commerce players (like Flipkart, Amazon, Snapdeal, Jabong, etc) and our products are also available at their portals, thereby strengthening our footprints online.

Rupa is focusing on enhancing its product offering in the women's segment with the introduction of new products and brands. It has launched women's wear under the brand "Bumchum Women", which has a range of active wear, leisure wear and loungewear.

The Company is engaged in the Manufacturing, Branding and Marketing of Men's and Women's Innerwear, Thermal wear and Casual wear for kids and all sections of the society, like, Economy, Mid-Premium, Premium and Super-Premium. It has over 18 sub-brands and 8000 SKUs (Stock Keeping Unit), having a strong brand recall. In order to nurture its brands, the Company has been consistently involved in robust advertisement and brand promotion activities, thereby spending extensively on brand communication. In innerwear industry, the Company is a leader having a distribution network across India. The Company has a PAN-India presence with a large distribution network consisting of 4 central warehouses, 6 EBOs (Exclusive Brand Outlets), 20 branches, 1000 dealers and more than 1,18,000 retailers. It is also looking at enhancing availability through presence in e-commerce, MBOs (Multi-Brand Outlets) and LFRs (Large Format Retail Stores). The Company is also looking forward to open Rupa EBOs through the franchisee route across India and expand its retail footprint.

Report of the Board of Directors

for the Financial Year ended March 31, 2017

The Company has manufacturing facilities situated at Howrah Domjur, Tirupur, Bengaluru and Ghaziabad. The Company has sales offices situated at Kolkata, Patna, Varanasi, Mumbai, Jaipur, Indore, Delhi, Ghaziabad, Kanpur, Bengaluru, Tirupur and Hyderabad. The Company follows efficient business strategy by outsourcing low end and labour intensive work and utilizes its resources on key areas involving value addition, product differentiation, branding and distribution.

The Company caters to all segment including men, women and kid segment with its wide bouquet of brands. The various sub-brands of the Company includes, Frontline, Jon, Air, Macroman, Macroman M series, Macrowoman W series, Euro, Bumchums, Torrido, Thermocot, Kidline, Footline, Softline, etc., catering to various segments, under its umbrella brand 'Rupa'. The brands are endorsed by leading celebrities, including Hrithik Roshan, Ranveer Singh, Sidharth Malhotra and Bipasha Basu.

Rupa is strengthening its position in the super-premium segment by acquiring the exclusive license for the manufacture, market and sale of innerwear and other products of foreign brands in India, through its Wholly-owned Subsidiary, Oban Fashions Private Limited. During the year 2016-17, the said Oban Fashions Private Limited acquired an exclusive license from French Connection Limited for the brand 'FCUK' and has also acquired the brand 'Fruit of the Loom' from Fruit of the Loom, Inc, a Wholly-owned Subsidiary of Berkshire Hathaway Company, for the manufacture, market and sale of innerwear and other products in India. We believe that these licenses would help the Rupa Group to further strengthen and cement its position in the super-premium segment.

The male innerwear segment contributes approximately, 87% of the Company's business. Presently, the Company is catering to female innerwear space through its brands Jon, Softline and Macrowoman W Series. The Company is continuously striving at strengthening its female innerwear segment, as well and is open to grow in this segment through inorganic route also in domestic market. The business opportunity in women's innerwear is huge, as it comprises 60% of the total Indian innerwear market in value terms and is growing at a brisk pace of 15%, as compared to the average industry growth rate of 12%.

The Indian innerwear industry is highly unorganized with unorganized players having 50% market share. We believe that there is huge potential for organized players to gain market share in the Indian innerwear industry, especially, after the recent demonetization and restrictions on cash based transactions. Further, the implementation of GST would be a major positive for organized players, which is expected to bring down the manufacturing cost and would make the market relatively more competitive for the organized players. Further, the organized players would also get set-off on service tax paid on advertisement expenses.

In the past 3-4 years, the topline of the Company has been growing at a single digit growth rate on account of, (i) higher industry growth in premium and super-premium segments, (ii) shift in consumer preference towards upper segment products, and (iii) economy segment in men's wear is facing competition from unorganized players and new players. But with the acquisition of foreign brands by the Wholly-owned Subsidiary of the Company, it will help the Group to penetrate deeper in the premium and super-premium segments. Besides this, we believe that the implementation of GST would also help the Group to grow its economy and mid-segment, which will become more competitive for the organized players.

The Indian innerwear market is estimated to grow at 13% to reach ₹ 59,540 crores by 2023. Innerwear appears to be a potential growth category. The men's innerwear market contributes 40% and is characterized by the presence of numerous Indian and international brands. The economy segment contributes around 56% in the men's wear market, the mid-price segment 30% and the remaining 14% comes from premium and super-premium segments. Further, the premium and super-premium segments are expected to grow at a faster pace. The women's innerwear market, which is driven by value-added innerwear products, contributes around 60% to the market and is growing at a faster rate of 15%. The market is largely dominated by mid-priced and economy segment contributing 80% of the market, while remaining comes from the premium and super-premium segments. The Company believes that the industry is 50% unorganized and expects shift to happen from unorganized to organized in the longer run. Increasing urbanization, preference towards branded products, introduction of GST, organized and online retailing, etc., are various factors which would drive growth for organized players.

The Company believes in the overall growth of its innerwear, thermal wear and casual wear business across India through its innovative designs, superior product quality, ability to create a sustainable business model, initiatives to nurture the in-house talent and the zeal towards the healthy creation of stakeholders' value. To overcome the various economical challenges, the Company, from time to time, revisits its marketing strategies. The Company has always been responsive towards the changing fashion needs by introducing new line of products across all segments.

Annexure to the Board's Report

Annexure – I

Dividend Distribution Policy

[Pursuant to Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015]

1. Background

The Securities Exchange Board of India (“SEBI”) vide its Notification dated July 08, 2016 has amended the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the “Listing Regulations”) by inserting Regulation 43A in order to make it mandatory to have a Dividend Distribution Policy in place by the top five hundred listed companies based on their market capitalization calculated as on the 31st day of March of every year.

Therefore, the Board of Directors of Rupa & Company Limited (“the Company”) has adopted this Dividend Distribution Policy of the Company as per the requirement, abovementioned.

2. Effective Date

This Policy shall become effective from the date of its adoption by the Board i.e. February 10, 2017.

3. Definitions and Interpretations

- (a) ‘Act’ shall mean the Companies Act, 2013 as amended from time to time and shall include Rules, Regulations and Secretarial Standards made thereunder or pursuant thereto;
- (b) ‘Board’ shall mean Board of Directors of the Company;
- (c) ‘Company’ shall mean Rupa & Company Limited;
- (d) ‘Dividend’ includes interim dividend;
- (e) ‘Policy’ shall mean Dividend Distribution Policy of the Company as per Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- (f) ‘Listing Regulations’ shall mean SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

All words and expressions used but not defined in this Policy, but defined in the Act or the Listing Regulations shall have the same meaning as respectively assigned to them in such Act or Listing Regulations, as the case may be.

Words importing the singular number shall include the plural number and words importing the masculine gender shall, where the context admits, include the feminine and neuter gender.

4. Purpose, Objectives and Scope

Considering the provisions of the Regulation 43A of the Listing Regulations, the Board recognizes the need to lay down a broad framework for considering decisions by the Board of the Company, with regard to distribution of dividend to its shareholders and/ or retaining or plough back of its profits. The Policy also sets out the circumstances and different factors for consideration by the Board at the time of taking such decisions of distribution or retention of profits, in the interest of providing transparency to the shareholders.

The Policy is not an alternative to the decision of the Board for recommending dividend, which is made every year after taking into consideration all the relevant circumstances enumerated hereunder or other factors as may be decided as relevant by the Board.

Declaration of dividend on the basis of parameters in addition to the elements of this Policy or resulting in amendment of any element or the Policy will be regarded as deviation. Any such deviation on elements of this Policy in extraordinary circumstances, when deemed necessary in the interests of the Company, along with the rationale will be disclosed in the Annual Report by the Board of Directors.

The Policy reflects the intent of the Company to reward its shareholders by sharing a portion of its profits after retaining sufficient funds for growth of the Company. The Company shall pursue this Policy, to pay, subject to the circumstances and factors enlisted hereon, progressive dividend, which shall be consistent with the performance of the Company over the years.

The Policy shall not apply to: • Determination and declaring dividend on preference shares, if any, as the same will be as per the terms of issue approved by the shareholders; • Distribution i.e. by issue of fully or partly paid bonus shares or other securities, subject to applicable law; • Distribution of cash as an alternative to payment of dividend by way of buyback of equity shares.

5. Considerations relevant for Decision of Dividend Pay-Out

The Board shall consider the following, while taking decisions of a dividend payout during a particular year:

Annexure to the Board's Report

Statutory requirements: The Company shall observe the relevant statutory requirements including those with respect to mandatory transfer of a certain portion of profits to any specific reserve such as Debenture Redemption Reserve, Deposit Repayment Reserve etc., if any, as provided in the Act or any other statutes which may be applicable to the Company at the time of taking decision with regard to dividend declaration or retention of profit.

Agreements with lending institutions/ Debenture Trustees: The decision of dividend pay-out shall also be affected by the restrictions and covenants contained in the agreements with the lenders of the Company, if any, from time to time.

Shareholders agreement including JV agreement entered into by the Company: The decision of dividend pay-out shall meet the conditions of any Shareholders agreement including JV agreement, if any, to be entered into by the Company.

Long term strategic objectives of the Company as regards financial leverage: The Board shall analyse the requirement of necessary funds considering the long term or short term projects proposed to be undertaken by the Company and the viability of the options in terms of cost of raising necessary funds from outsiders such as bankers, lending institutions or by issuance of debt securities or ploughing back its own funds.

Prudential requirements: The Company shall analyse the prospective projects and strategic decisions in order to decide:

- to build a healthy reserve of retained earnings;
- to augment long term strength;
- to build a pool of internally generated funds to provide long-term resources as well as resource-raising potential for the Company; and
- the needs for capital conservation and appreciation.

Proposals for major capital expenditures etc.: In addition to plough back of earnings on account of depreciation, the Board may also take into consideration the need for replacement of capital assets, expansion and modernization or augmentation of capital stock, including any major capital expenditure proposals.

General considerations: Subject to the considerations as provided in the Policy, the Board shall determine the dividend payout in a particular year after taking into consideration the operating and financial performance of the Company, the advice of executive management including the CFO, and other relevant factors.

6. Other Financial Parameters

In addition to the aforesaid parameters such as realized profits and proposed major capital expenditures, the decision of dividend payout or retention of profits shall also be based the following-

Operating cash flow of the Company: If the Company cannot generate adequate operating cash flow, it may need to rely on outside funding to meet its financial obligations and sometimes to run the day-to-day operations. The Board will consider the same before its decision whether to declare dividend or retain its profits.

Net sales of the Company: To increase its sales in the long run, the Company will need to increase its marketing and selling expenses, advertising etc. The amount outlay in such activities will influence the decision of declaration of dividend.

Return on invested capital: The efficiency with which the Company uses its capital will impact the decision of dividend declaration.

Magnitude of earnings of the Company: Since dividend is directly linked with the availability of earning over the long haul, the magnitude of earnings will significantly impact the dividend declaration decisions of the Company.

Cost of borrowings: The Board will analyze the requirement of necessary funds considering the long term or short term projects proposed to be undertaken by the Company and the viability of the options in terms of cost of raising necessary funds from outsiders such as bankers, lending institutions or by issuance of debt securities or plough back its own funds.

Obligations to creditors: The Company should be able to repay its debt obligations without much difficulty over a reasonable period of time. Considering the volume of such obligations and time period of repayment, the decision of dividend declaration shall be taken.

Inadequacy of profits: If during any Financial Year, the Board determines that the profits of the Company are inadequate, the Board may decide not to declare dividends for that financial year.

Post dividend EPS: The post dividend EPS can have strong impact on the funds of the Company, thus, impacting the overall operations on day-to-day basis and therefore, affects the profits and can impact the decision for dividend declaration during a particular year.

Annexure to the Board's Report

7. Factors that may affect Dividend Payout

External Factors: Taxation and other regulatory concern

- Dividend distribution tax or any tax deduction at source as required by applicable tax regulations in India, as may be applicable at the time of declaration of dividend.
- Any restrictions on payment of dividends by virtue of any regulation as may be applicable to the Company at the time of declaration of dividend.

Product/ market expansion plan: The Company's growth oriented decision to conserve cash in the Company for future expansion plan impacts shareholders expectation for the long run which shall have to consider by the Board before taking dividend decision.

Macroeconomic conditions: Considering the state of economy in the Country, the policy decisions that may be formulated by the Government and other similar conditions prevailing in the international market which may have a bearing on or affect the business of the Company, the management may consider retaining a larger part of the profits to have sufficient reserves to absorb unforeseen circumstances.

Internal Factors

Past performance/ reputation of the Company: The trend of the performance/ reputation of the Company that has been during the past years determine the expectation of the shareholders.

Working capital management in the Company: The current working capital management system within the Company also impacts the decision of dividend declaration.

Age of the Company and its product/market: The age of the Company and its product or the market in which the Company operates will be one of the most significant determining factors to the profitability of the Company and dividend declaration or retention.

Amount of cash holdings in the Company: In the investor's point of view, in the absence of any major expansion plan or capital investments or other strategic investment plans in the hands of the Company, the investors may not appreciate excessive cash holdings in the Company. The Board shall have to consider the same before taking decision of dividend declaration.

8. Circumstances under which Dividend Payout may or may not be expected

The Board shall consider the factors provided above under Para's 5 to 7, before determination of any dividend payout after analyzing the prospective opportunities and threats, viability of the options of dividend payout or retention etc. The decision of dividend payout shall, majorly be based on the aforesaid factors considering the balanced interest of the shareholders and the Company.

9. Manner of utilisation of retained earnings

The Board may retain its earnings in order to make better use of the available funds and increase the value of the shareholders in the long run. The decision of utilization of the retained earnings of the Company shall be based on the following factors:

- Market expansion plan;
- Product expansion plan;
- Increase in production capacity;
- Modernisation plan;
- Diversification of business;
- Long term strategic plans;
- Replacement of capital assets;
- Where the cost of debt is expensive;
- Other such criteria as the Board may deem fit.

10. Parameters with regard to various classes of shares

The paid-up capital of the Company is consisting of only equity shares of nominal value of Re.1/- each and does not have different classes of shares. However, if different class of shares be issued subsequently, the same shall meet the parameters based on the respective rights attached to each class of shares as per their terms of issue.

11. Range of Dividend

Subject to the regulatory requirements, this Policy and the factors which are necessarily to be considered at the time of recommending/ declaring the dividend, the Board would endeavor to maintain a dividend pay-out (including applicable taxes) in the range of 20% to 45% of the Standalone Profit after Tax of the Company. The Company would endeavor to keep and maintain the said range of dividend payout except for reasons to be recorded.

12. Amendment

The Chairman or Managing Director of the Company shall be jointly/severally authorised to review and amend the Policy, to give effect to any changes/ amendments notified by any regulator under the applicable law from time to time. Such amended Policy shall be periodically placed before the Board for noting and necessary ratification.

Management Discussion and Analysis

Industry Structure and Development

India still remains the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). As per the Economic Survey 2016-17, the Indian economy should grow between 6.75 to 7.5 per cent in Financial Year (FY) 2017-18. The improvement in India's economic fundamentals has accelerated from the year 2015 with the combined impact of strong government reforms, Reserve Bank of India's (RBI) inflation focus supported by benign global commodity prices. India's consumer confidence index stood at 136 in the fourth quarter of 2016, topping the global list of countries on the same parameter, as a result of strong consumer sentiment, according to market research agency, Nielsen.

According to IMF World Economic Outlook Update (January 2017), Indian economy is expected to grow at 7.2 per cent during FY 2016-17 and further accelerate to 7.7 per cent during FY 2017-18. According to The World Bank, the Indian economy will likely grow at 7 per cent in 2016-17, followed by further acceleration to 7.6 per cent in 2017-18 and 7.8 per cent in 2018-19.

The steps taken by the government in recent times have shown positive results as India's industry output grew 2.74 per cent year-on-year in January 2017, led by a good performance in the capital goods sector which registered a 10.7 per cent year-on-year growth. India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers.

Textile Industry

The Indian textiles industry, currently estimated at around US\$ 108 billion, is expected to reach US\$ 223 billion by 2021. The industry is the second largest employer, after agriculture, providing employment to over 45 million people directly and 60 million people indirectly. The Indian Textile Industry contributes approximately, 5 per cent to India's gross domestic product (GDP), and 14 per cent to overall Index of Industrial Production (IIP).

The Indian textile industry has the potential to reach US\$ 500 billion in size according to a study by Wazir Advisors and PCI Xylenes & Polyester. The growth implies domestic sales to rise to US\$ 315 billion from currently US\$ 68 billion. At the same time, exports are implied to increase to US\$ 185 billion from approximately, US\$ 41 billion currently.

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The organised apparel segment is expected to grow at a Compound Annual Growth Rate (CAGR) of more than 13 per cent over a 10-year period.

According to Indian Ratings and Research, the Indian cotton textile industry is expected to showcase a stable growth in FY 2017-18, supported by stable input prices, healthy capacity utilisation and steady domestic demand.

Innerwear Category

The Innerwear Category promises growth and innovation and shows one of the highest growth in the apparel market. It is no longer a functional category, today it is looked at as a fashion statement. The increase in income levels, along with higher disposable income, growing fashion orientation of consumers, and product innovations by the innerwear market have turned this category from a traditionally utilitarian item to an essential fashion requirement. There has been a distinct shift from price sensitive to brand sensitive. Consumers are seeking out bold colours and unique designs. The growth of the innerwear category is primarily centered in urban India. The trend towards western outfits, combined with the demand for occasion- and outfit-based innerwear, is acting as a boost for the market. The demand for innerwear with higher functionality and greater comfort is rising fast. The market for innerwear product variations like seamless intimates, plus size inner wear, body shape enhancers, etc., is burgeoning in the metros and mini metros.

Management Discussion and Analysis

The Men's Innerwear Market

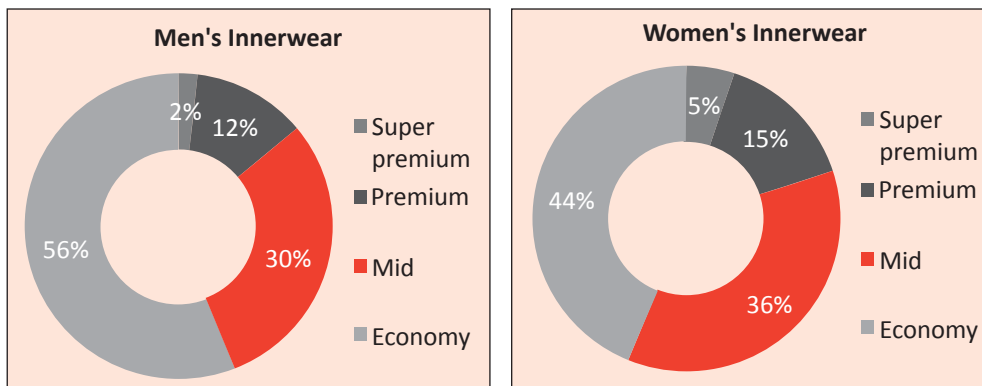

The men's innerwear market is characterized by the presence of numerous Indian and international brands catering to different segments of the market. Though many fashion/apparel players have extended their existing brand labels in menswear to men's innerwear as well, but the product recall of players with focus solely on innerwear products is comparatively higher. The various subcategories of men's innerwear include vests, briefs/boxers, basic T-shirts, shorts/pyjamas, sleepwear, and activewear. Consumers mostly purchase branded products for vests and brief/boxers, which are the largest category offerings from leading innerwear brands. On the basis of product pricing, this market is further subdivided into super-premium, premium, medium, and economy segments. The economy segment contributes around 55% to the market, while the mid-price segment makes up 36%, the remaining 14% comes from premium and super-premium segments. The premium and mid-price segments are expected to witness a higher growth rate within this market. In these segments, the consumer seeks higher fashion orientation and higher comfort, as well as a strong brand name. The younger consumers in the metros engage with brands primarily within the premium segment. It has been observed that consumers in the Tier I cities play across segments, i.e., premium as well as mass segment; however, the premium segment largely fuels the aspiration quotient. In the mid-price and economy segments, value for money, easy availability, and comfort play a vital role in the consumers' purchase decisions.

The Women's Innerwear Market

The women's innerwear market is one of the fastest growing categories within women's apparel. The women's innerwear market is considered to be more dynamic, with many design variation and the regular introduction of innovative products. With rise in the number of working women, they are starting to seeking aspirational brands, colours, fits, etc.

The sub-categories in women's innerwear include brassieres, panties, camisoles, basic T-shirts, shorts/pyjamas, sleepwear, activewear, and maternity wear. Consumers in this category mostly purchase branded brassieres and panties, which constitute more than 90% of the category mix. However, the penetration of brands is comparatively low for other subcategories, like, camisoles, sleepwear, etc. There is an increase in demand for branded innerweares that offer superior fit and comfort.

When it comes to price-wise segmentation, the women's innerwear market is dominated by products of mid-price and economy segment. These segments together contribute 80% of the market, while the remaining 20% comes from the premium and super-premium segments. Like men's innerwear, the mid-price and premium segments are expected to grow more rapidly within women's innerwear categories. There is also an increase in demand for Athleisure and Comfort apparels in the innerwear segment. This is a lifestyle shift for the Indian Audiences.

Looking to the Future

Simply put, the future of the apparel market, and the innerwear category, looks promising. At the same time, fashion retailers have to face some daunting challenges prior to tapping the extant opportunities. Rising real estate costs, increasing power tariffs, and supply chain inefficiencies are some of the issues that have to be tackled with utmost prudence. The innerwear segment is also facing a lot of challenges from the unorganised market, which should shrink after GST implication.

Management Discussion and Analysis

The growth story of Indian consumption is expected to revive in the medium to long term, but it will require improvements in the overall business performance and managerial prudence of the highest degree to benefit from this growth. To emerge a winner in a market marked by the presence of multiple players, brands and retailers have to optimize their business operations by addressing the challenges and harnessing market opportunities. Understanding the psyche of the Indian consumer, amalgamating the Indian style of functioning with western management techniques, and tailoring fashion offerings to defined consumer segments, are some of the key areas upon which fashion and innerwear players have to focus.

The Menswear Market

With a market size of INR 87,500 crore (USD 16 billion) in 2012, menswear is the largest segment in India's apparel market, accounting for 42% of the overall market. In comparison, womenswear makes up 38%, while kidswear comprises 20% of the market. The menswear market is expected to grow at a CAGR of 8.5% over the next five years to reach INR 131,000 crore (USD 24 billion) by 2017. Throughout the projection period 2017-2026, premium and niche segments will contribute to 70-80% sales from own brands in the Men's and Women's categories.

Menswear consumers are in a phase of transition; they no longer want to stick to wearing apparel of defined styles and silhouette but also want to experiment with the look of the clothing. Consumer's desire to look fashionable and trendy is one of the primary factors driving the menswear market globally. Therefore, celebrity endorsement has a significant role to play in setting fashion trends and also helps to build product and brand awareness.

Another interesting trend in the menswear market is the steady growth in the premium tailoring segment comprising the fashion designers and the bespoke / luxury segment. Customers in the super-premium segment are willing to pay a premium to ensure that their tailor-made clothing reflects their own personality and also helps them differentiate themselves and get noticed.

The Womenswear Market

Share of women's category in apparel market is almost equal to men's. With the relatively lower penetration of brands, and the growing disposable income of modern women, this segment has become the focus of many Indian and international brands.

Market Size and Growth Projections

The womenswear market is expected to grow at a CAGR of 9% for the next five years to reach a figure of INR 121,400 crore (USD 22.3 billion).

With increasing women in the workforce, and the growing economic independence of women, the demand for women's westernwear is at an all-time high, thanks to which women's westernwear is emerging a clear winner in the womenswear market. This trend is expected to continue as more women enter into the workforce or aspire to follow the lifestyle of working women. Within working women, there is a clear trend indicating the growing acceptance of women's dresses and western wear.

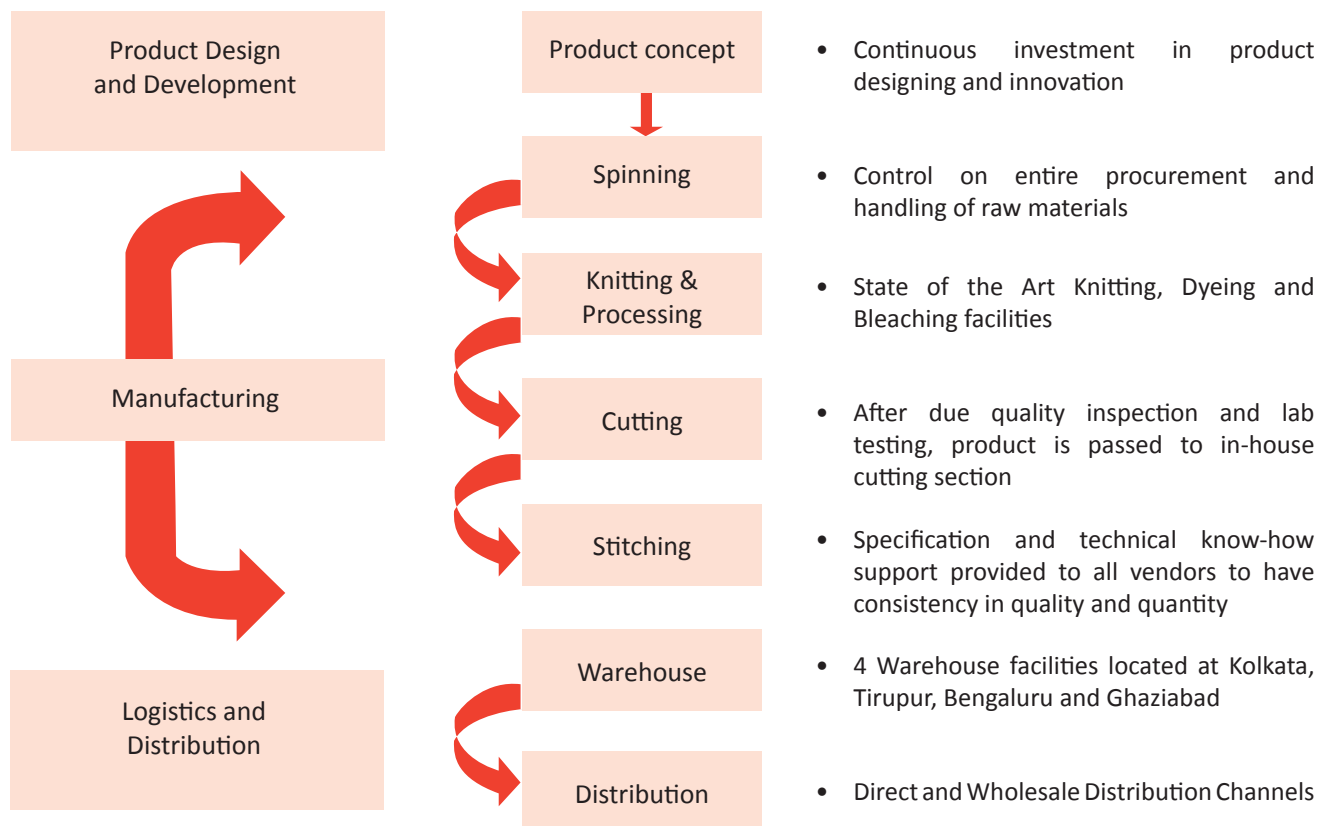

Despite the trend of consumers moving away from ethnicwear, some sub-categories within women's ethnicwear are emerging as promising business opportunities. The demand for contemporary ethnicwear with trendy look and comfort elements is accelerating. Even the traditional ethnicwear subcategory is witnessing the entrance of a growing number of organized players who assure the desired quality and right fit. The fusion of western style and cuts and even knitted fabrics with basic Indian ethnic designs is another noticeable trend in the womenswear market.

Rupa: follows efficient business strategy

The Company intends to keep itself asset light by outsourcing low end and labour intensive work in the manufacturing process. The Company procures yarn, does dyeing in-house, carries out knitting process partly inhouse, design and cutting in-house and outsources stitching, which is labour intensive through job work (90% of job work). On the other hand, it utilizes its resources on key areas involving value addition, product differentiation, branding and distribution. Going forward, it intends to continue with asset light strategy. The Company does not have any major capex plan to achieve higher growth in future and would continue to follow the outsourcing model. It is keeping control on inventory through SAP which helps it to manage working capital in an efficient manner.

Management Discussion and Analysis

Efficient Business Model

The Company is focusing on enhancing its product offering in the children and women's segment with the introduction of new products and brands. The Company is also looking to foray into the women's lingerie segment and is looking for a tie-up for the same. Both the children and women's segment have a lower presence of organised players and hence, provide a huge opportunity for the Company. The Indian innerwear market is shifting from a price sensitive market to a fashion quotient market. Accordingly, Rupa is gradually increasing its presence in the premium segment with direct and indirect strategic tie-ups with various foreign brands.

Opportunities

- With increasing disposable incomes and customers' willingness to shell out more for better quality innerwear products, resulting into distinctive shift from price sensitivity to brand sensitivity;
- Consumers are becoming more aspirational and brand savvy because of increasing fashion consciousness;
- The Indian innerwear market continues to be underpenetrated and thereby holds immense business opportunities;
- Growing penetration of organized retail market;
- Increasing urban population and women corporate workforce;
- Improving connectivity with villages generating awareness for better quality of life and fashion;
- Increasing local sourcing by global brands/ retailers in India.

Management Discussion and Analysis

Threats

- Increasing apparel imports from other countries;
- Emerging multi-national brands and their entry to the Indian market;
- Higher costs involved in brand building;
- Impact of global economic slowdown on India's consumption;
- E-commerce penetration & B2C.

Risks and Concerns

Volatility in the raw material prices – Cotton yarn and fabric accounts for approximately, 70% of the total raw material cost. The Company sources innerwear products through third party manufacturing and sources major raw materials. Currently, the Company is able to pass on any rise in the prices of raw material to the consumer. Any inability to pass on the impact of rise in raw material prices may negatively affect the estimated margin of the Company and would lead to earnings downgrade.

Large size acquisition or unrelated business diversification through cash flows – The Company has a free cash flow positive business. There is a risk of utilizing the cash flows for unrelated diversification or large size acquisition. In case such diversification or acquisition turns unsuccessful, there would be a risk of earning downgrades.

Skilled labour unavailability - The textile industry is a highly labour intensive industry and lack of availability of skilled labour will hinder its expansion plans.

Changing customer's behaviour and spending capacity - The improving Indian demographics have given credence to the Indian consumption story. Any blip in economic growth for an elongated period will impact the discretionary spends thereby negatively impacting the earning potential of the Company. Changing customers' preference rapidly from one brand to another makes it difficult for a Company to establish a permanent connect and in gaining brand loyalty, consequently, leading to loss of business to its competitors.

Internal Control System and their Adequacy

The Company has adequate system of Internal Controls System commensurate with its nature of business and size of operations to safeguard and protect from loss, unauthorized use or disposition of Company's resources. The transactions are properly authorized, recorded and reported to the management. Systems and procedures exist to ensure that all transactions are recorded as necessary to permit preparation of Financial Statements in conformity with GAAP Principles or any other criteria applicable to such statements, and to maintain accountability for aspects. The internal audit process reviews the in-system checks, covering significant operational areas regularly. The Audit Committee of the Board of Directors of the Company reviews the Internal Audit Report submitted by the Internal Auditors. Suggestions for improvements are considered and the Audit Committee follows up on the implementation of corrective actions. The Audit Committee also invites the Statutory and Internal Auditors for regular meetings to ascertain their views on the adequacy of Internal Control System and keeps the Board of Directors informed of its observations from time to time.

Human Resources

The Human Resources (HR) function is instrumental in creating and developing human capital in alignment with the Company's requirement. One of the key focus areas in the Company's objective is to groom and to train employees. It imparts specialized and technical training to its employees at regular intervals, which enrich their knowledge, skill and competency to perform their job effectively and efficiently. The Company firmly believes that employee motivation, development and engagement are key aspects of good HR management. Further, the focus is on enriching the quality of life of its employees, developing their potential and maximizing their productivity. The HR strategy enables the Company to attract, integrate and retain the best talent required for driving its business growth. This also encourages employees to shoulder more responsibilities and take part in the growth of the Company's business. As on March 31, 2017, the number of permanent employees was 598. The industrial relations were also cordial during the period under review.

Cautionary Statement

Statements in the Management Discussion and Analysis describing the objectives, projections, estimates and expectations are 'forward-looking statements' within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations includes economic conditions affecting demand/ supply and price conditions in the markets in which the Company operates, changes in Government regulations, tax laws, statutes and other incidental factors.

Corporate Governance Report

Company's Philosophy on Code of Governance

Corporate Governance is a system by which corporate entities are directed and controlled, encompassing the entire mechanics of the functioning of a Company. Good Corporate Governance practices are a sine qua non for sustainable business that aims at generating long term value to all its shareholders and other stakeholders.

The Company believes that strong governance standards, focusing on fairness, transparency, accountability and responsibility are vital not only for the healthy and vibrant corporate sector growth, but also for inclusive growth of the economy. The Company has always focused on good Corporate Governance, which is a key driver of sustainable corporate growth and long term value creation for its stakeholders. The Company has measures to periodically review and revise the Corporate Governance practices by subjecting business processes to audits and checks that measures up to the required standards. The Company believes that Corporate Governance is not just limited to creating checks and balances; it is more about creating organizational excellence leading to increasing employee and customer satisfaction and shareholder value. The Company always endeavors to leverage its human and capital resources to translate opportunities into reality, create awareness of corporate vision and spark dynamism and entrepreneurship at all levels.

Board Procedure

The Board meets at least once in a quarter to review the quarterly business and the financial performance of the Company, apart from other Board business. However, the Board's function is not limited to matters requiring approval of the Board statutorily. The Board is involved in all the important decisions relating to the Company and policy matters, strategic business plans, new avenues of investment and expansion, compliance with statutory/ regulatory requirements, major accounting provisions, etc. The Independent Directors provide an effective monitoring role and play an important role in the deliberations at the Board and Committee Meetings and bring to the Company their expertise in the fields of business, corporate governance, strategic and risk management, finance, management and law.

The Company, from time to time, familiarises its Independent Directors with the Company, their roles, rights, responsibilities in the Company, nature of the industry in which the Company operates, business model of the Company, etc. The detail of familiarization programme is disclosed on the website of the Company. The same is available on the website of the Company at the link, http://rupa.co.in/site/wp-content/uploads/2015/10/Familiarization_Programme_for_Independent_Directors1.pdf

The Meetings of the Board are generally convened at the Company's Registered Office at Kolkata. In case of urgency or when the Board Meeting is not practicable to be held, the matters are resolved via circular resolution, as permitted by law, which is noted and confirmed in the subsequent Board Meeting. During the year, circular resolution was passed, which was moved vide circulation sheet dated November 1, 2016, on November 2, 2016, after receiving assent from the Directors in the matter of appointment of M/s. Singhi & Co. (Firm Registration Number 302049E), Chartered Accountants, as the Statutory Auditors of the Company to fill the casual vacancy caused due to the resignation of M/s. S. R. Batliboi & Co. LLP (Firm Registration Number 301003E/ E300005), Chartered Accountants.

The Board Meetings are generally scheduled well in advance and the notice of the same is given in writing to each Director. The Board papers, comprising the agenda backed by comprehensive background information, are circulated to the Directors in advance as prescribed by law, to enable the Directors to take an informed decision and, in exceptional cases, the same is tabled at the Board Meeting. The Board is also free to take up any matter, not included in the Agenda, for consideration with the permission of the Chairman and with the consent of majority of the Directors present in the Meeting, including one Independent Director.

To enable the Board to discharge its responsibilities effectively, the members of the Board are briefed at the Board Meeting on the overall performance of the Company. The information, as specified in Regulation 17(7) of the Listing Regulations and Secretarial Standard - 1, is made available to the Board, wherever applicable.

Corporate Governance Report

The Minutes of the Board Meetings are circulated to all the Directors and confirmed at the subsequent Meeting. The Minutes of the Meetings of the Committees of the Board are placed before the Board Meeting of the Company for its review. Also, the Minutes of the Board Meetings of the Subsidiary Companies are placed at the Board Meetings of the Company for its review.

Independent Auditor's Report

To the Members of
Rupa & Company Limited

Report on the Standalone Financial Statements

We have audited the accompanying Standalone Financial Statements of **Rupa & Company Limited** ('the Company'), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2017 and its profit and its cash flows for the year ended on that date.

Annexure B to the Independent Auditor's Report

The Annexure referred to in paragraph 2(f) under the heading “Report on Other Legal and Regulatory Requirements” of our Independent Auditors’ Report of even date in respect to the internal financial control under clause (i) of sub-section 3 of Section 143 of the Act of Rupa & Company Limited for the year ended March 31, 2017, we report that:

We have audited the internal financial controls over financial reporting of Rupa & Company Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Annexure B to the Independent Auditor's Report

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statement

as at and for the year ended March 31, 2017

1 Corporate Information

Rupa & Company Limited (the Company) is a public company domiciled in India. Its shares are listed on the National Stock Exchange of India Ltd. and BSE Limited. The Company is primarily engaged in manufacture of hosiery products in knitted undergarments, casual wears and thermal wears. It also has a Power Generation Unit operated on Windmill process.

2 Summary of Significant Accounting Policies

2.1 Basis of preparation

The Financial Statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). The Company has prepared these Financial Statements to comply in all material respects with the Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014. The Financial Statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of Financial Statements are consistent with those of previous year.

2.2 Use of Estimates

The preparation of Financial Statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 Tangible Fixed Assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met, and directly attributable cost of bringing the asset to its working condition for the intended use. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of fixed assets are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on tangible fixed assets is provided under straight line basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. The Company has used the following rates to provide depreciation on its tangible fixed assets:

Class of Assets	Useful Lives estimated by the management (Years)
Factory Buildings	30
Non-factory Buildings	60
Plant and Machinery	10 to 15
Computer and Data Processing Equipments	3 to 6
Furnitures and Fixtures	10
Vehicles	8
Office Equipments	5

Notes to the Financial Statement

as at and for the year ended March 31, 2017

The management has estimated, supported by independent assessment by professionals, the useful lives of certain plant and machinery as 10 years. These lives are lower than those indicated in Schedule II to the Companies Act, 2013.

Leasehold land is amortized on a straight line basis over the period of lease, i.e., 90 years.

2.4 Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful economic lives.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit & Loss. The useful lives over which intangible assets are amortised are as under:

Assets	Useful Life (in years)
Copyrights & Trademarks	10
Computer Software	5

2.5 Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

2.6 Impairment

The carrying amount of assets (tangible and intangible) is reviewed at each Balance Sheet date, to determine if there is any indication of impairment based on the internal/external factors. An impairment loss is recognized wherever the carrying amount of assets exceeds its recoverable amount which is the greater of net selling price and value in use of the respective assets. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risk specific to the asset. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.7 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the Financial Statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the long-term investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Notes to the Financial Statement

as at and for the year ended March 31, 2017

2.8 Inventories

Raw materials and packing materials are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials is determined on specific identification basis except packing materials, accessories and dyes and chemicals which are determined on weighted average basis.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of work-in-progress (measured in kgs) is determined on specific identification basis and cost of work-in-progress (measured in pieces) and cost of finished goods is determined on Retail Sales Price Method.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of traded goods is determined on First in First out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.9 Foreign Currency Transactions

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences arising on the settlement/conversion of monetary items are recognized as income or expenses in the period in which they arise.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contracts entered into to hedge an existing asset/liability, is amortised as expense or income over the life of the contract. Exchange differences on such a contract are recognised in the Statement of Profit & Loss in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract are recognised as income or as expense for the period.

2.10 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of Goods: Revenue from sale of goods is recognised upon passage of title to the customers, in accordance with the Sales of Goods Act, 1930. Sales are net of discounts, rebates and sales taxes. The Company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenues.

Sale of Services: In contracts involving the rendering of services, revenue is measured using the completed service method.

Notes to the Financial Statement

as at and for the year ended March 31, 2017

Interest: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other Income" in the Statement of Profit and Loss.

Dividend: Dividend income is recognized when the Company's right to receive dividend is established by the reporting date.

Export Incentives: Export incentives are recognised when the right to receive such incentives as per the applicable terms is established in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation / utilisation of such incentives.

Insurance and other claims due to uncertainty in realisation are accounted for on acceptance basis.

2.11 Retirement and Other Employee Benefits

- (i) **Provident & Pension Fund:** Retirement benefits in the form of Provident and Pension Funds are defined contribution schemes and are charged to the Statement of Profit and Loss of the period when the contributions to the respective funds are due. The Company has no obligation other than contributions to the respective funds. The Company recognises contribution payable to the Provident Fund Scheme as an expenditure, when an employee renders the selected service.
- (ii) **Gratuity:** The Company operates Defined Benefit Plan for its employees, viz., Gratuity. The costs of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out using the Projected Unit Credit Method. Actuarial gains and losses is recognized in full in the period in which they occur in the Statement of Profit and Loss.
- (iii) The leave balances of the employees are only encashable during the year and cannot be accumulated and carried forwarded to next year.

2.12 Taxes on Income

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

2.13 Provisions, Contingent Liabilities and Contingent Assets

Provisions: A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent Liabilities: A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Financial Statements.

Contingent Assets: A contingent asset is neither provided for nor disclosed

2.14 Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

2.15 Government Grants

Grants and subsidies from the government are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them, and the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the asset concerned in arriving at the carrying amount of the related asset.

Government grants of the nature of promoter's contribution are credited to Capital Reserve and treated as a part of Shareholder's Funds.

2.16 Segment Reporting

Based on the synergies, risks and returns associated with business operations and in terms of Accounting Standard – 17, the Company is predominantly engaged in a single segment of Garments & Hosiery goods and related services. The analysis of geographical segments is based on the areas in which customers of the Company are located.

2.17 Cash and Cash Equivalents

Cash and cash equivalents for the purposes of Cash Flow Statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

2.18 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Independent Auditor's Report

To the Members of
Rupa & Company Limited

Report on the Consolidated Financial Statements

We have audited the accompanying Consolidated Financial Statements of **Rupa & Company Limited** (hereinafter referred to as “the Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”), comprising of the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit & Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the Consolidated Financial Statements”).

Management’s Responsibility for the Consolidated Financial Statements

The Holding Company’s Board of Directors is responsible for the preparation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as “the Act”) that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the Holding Company and of its subsidiaries are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

Auditor’s Responsibility

Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Financial Statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company’s preparation of the Consolidated Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company’s Board of Directors, as well as evaluating the overall presentation of the Consolidated Financial Statements.

We believe that the audit evidence we have obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2017, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

We did not audit the financial statements of three (3) subsidiaries, whose financial statements reflect total assets of ₹ 27,05,61,879 as at March 31, 2017, total revenues of ₹ 10,79,08,511 and net cash flows amounting to ₹ 56,107 for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the

Independent Auditor's Report

Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, to the extent applicable, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements;
 - d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Holding Company and its subsidiary companies incorporated in India is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 14 & 30 to the Consolidated Financial Statements;
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies;
 - iv. The Group has provided requisite disclosures in the financial statements as regards to its holding and dealings in Specified Bank Notes [as defined in the Notification S.O. 3407(E) dated the November 8, 2016 of the Ministry of Finance] during the period from November 8, 2016 to December 30, 2016. Based on audit procedures and relying on the management representation, we report that the disclosures are in accordance with books of account maintained by the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India – Refer Note 40 to the Consolidated Financial Statements.

Annexure A to the Independent Auditor's Report

The Annexure referred to in paragraph 1(f) under the heading “Report on Other Legal and Regulatory Requirements” of our Independent Auditors’ Report of even date in respect to the internal financial control under clause (i) of sub-section 3 of Section 143 of the Act of Rupa & Company Limited for the year ended March 31, 2017, we report that:

In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of the Holding Company. Based on the comments made by the Independent Auditors of the Subsidiaries incorporated in India (covered entities) with respect to the internal financial controls over financial reporting as required in terms of sub-section (3)(i) of Section 143 of the Act, we report as under:

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and the covered entities, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention

Annexure A to the Independent Auditor's Report

or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and based on the report issued by auditors of the subsidiary companies, the Holding Company and the covered entities has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to three (3) subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statement

as at and for the year ended March 31, 2017

1. Principles of Consolidation

The Consolidated Financial Statements which relate to Rupa & Company Limited (the "Company") and its subsidiaries (together referred to as the "Group") have been prepared on the following basis:

- a) The Financial Statements of the Company and its subsidiaries are consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenditure, after fully eliminating intra group balances, intra group transactions and any unrealized profit / loss included therein, in accordance with Accounting Standards (AS-21), "Consolidated Financial Statements".
- b) The excess/shortfall of cost to the Company of its investments in the subsidiary companies, over the net assets at the time of acquisition in the subsidiaries as on the date of investment is recognized in the Financial Statements as Goodwill/Capital Reserve, as the case may be.
- c) The subsidiary companies considered in the Financial Statements are as follows:

Name	% of Voting power as on March 31, 2017	% of Voting power as on March 31, 2016	Country of Incorporation
Euro Fashion Inners International Pvt. Ltd.	100%	100%	India
Imoogi Fashions Pvt. Ltd.	100%	100%	India
Oban Fashions Pvt. Ltd.	100%	100%	India

- d) The Consolidated Financial Statements have been prepared using uniform accounting policies, except stated otherwise, for like transactions and are presented, to the extent possible, in the same manner as the Company's Standalone Financial Statements.
- e) The Financial Statements of the group entities used for the purpose of consolidation are drawn up to the same reporting date as that of the Company, i.e., year ended March 31, 2017

2. Summary of Significant Accounting Policies

2.1 Basis of Preparation

The Financial Statements of the Group have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014. The Financial Statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of Financial Statements are consistent with those of previous year.

2.2 Use of Estimates

The preparation of Financial Statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

2.3 Tangible Fixed Assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met, and directly attributable cost of bringing the asset to its working condition for the intended use. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of fixed assets are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Subsequent expenditure related to an item of Fixed Asset is added to its book value only if it increases the future

Notes to the Consolidated Financial Statement

as at and for the year ended March 31, 2017

benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing Fixed Assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of Fixed Assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on tangible fixed assets is provided under straight line basis using the rates arrived at based on the useful lives estimated by the management. The identified components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. The Group has used the following rates to provide depreciation on its tangible fixed assets:

Class of Assets	Useful lives estimated by the management (Years)
Factory Buildings	30
Non-factory Buildings	60
Plant and Machinery	10 to 15
Computer and Data Processing Equipments	3 to 6
Furnitures and Fixtures	10
Vehicles	8
Office Equipments	5

The management has estimated, supported by independent assessment by professionals, the useful lives of certain Plant and Machinery as 10 years. These lives are lower than those indicated in Schedule II to the Companies Act, 2013.

Leasehold land is amortized on a straight line basis over the period of lease, i.e., 90 years.

2.4 Intangible Assets

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful economic lives. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit & Loss. The useful lives over which intangible assets are amortised are as under:

Assets	Useful Life (in years)
Copyrights & Trademarks	10
Business Rights	10
Computer Software	5

2.5 Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

2.6 Impairment

The carrying amount of assets (tangible and intangible) is reviewed at each Balance Sheet date, to determine if there is any indication of impairment based on the internal/external factors. An impairment loss is recognized wherever the carrying amount of assets exceeds its recoverable amount which is the greater of net selling price and value in use of the respective assets. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the

Notes to the Consolidated Financial Statement

as at and for the year ended March 31, 2017

time value of money and risk specific to the asset. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.7 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the Financial Statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the long-term investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

2.8 Inventories

Raw Materials and packing materials are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials is determined on specific identification basis except packing materials, accessories and dyes and chemicals which are determined on weighted average basis.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of work-in-progress (measured in kgs) is determined on specific identification basis and cost of work-in-progress (measured in pieces) and cost of finished goods is determined on Retail Sales Price Method.

Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of traded goods is determined on First in First out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.9 Foreign Currency Transactions

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences arising on the settlement/conversion of monetary items are recognized as income or expenses in the period in which they arise.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contracts entered into to hedge an existing asset/liability, is amortised as expense or income over the life of the contract. Exchange differences on such a contract are recognised in the Statement of Profit & Loss in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract are recognised as income or as expense for the period.

Notes to the Consolidated Financial Statement

as at and for the year ended March 31, 2017

2.10 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of Goods: Revenue from sale of goods is recognised upon passage of title to the customers, in accordance with the Sales of Goods Act, 1930. Sales are net of discounts, rebates and sales taxes. The Company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenues.

Sale of Services: In contracts involving the rendering of services, revenue is measured using the completed service method.

Interest: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other Income" in the Statement of Profit and Loss.

Dividend: Dividend income is recognized when the Company's right to receive dividend is established by the reporting date.

Export Incentives: Export incentives are recognised when the right to receive such incentives as per the applicable terms is established in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation / utilisation of such incentives.

Insurance and other claims due to uncertainty in realisation are accounted for on acceptance basis.

2.11 Retirement and Other Employee Benefits

(i) **Provident & Pension Fund:** Retirement benefits in the form of Provident and Pension Funds are defined contribution schemes and are charged to the Statement of Profit and Loss of the period when the contributions to the respective funds are due. The Company has no obligation other than contributions to the respective funds. The Company recognises contribution payable to the provident fund scheme as an expenditure, when an employee renders the selected service.

(ii) **Gratuity:** The Company operates Defined Benefit Plan for its employees, viz., Gratuity. The costs of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out using the Projected Unit Credit Method. Actuarial gains and losses are recognized in full in the period in which they occur in the Statement of Profit and Loss.

(iii) The leave balances of the employees are only encashable during the year and cannot be accumulated and carried forwarded to next year.

2.12 Taxes on Income

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Notes to the Consolidated Financial Statement

as at and for the year ended March 31, 2017

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

2.13 Provisions, Contingent Liabilities and Contingent Assets

Provisions: A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent Liabilities: A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Financial Statements.

Contingent Assets: A contingent asset is neither provided for nor disclosed.

2.14 Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

2.15 Government Grants

Grants and subsidies from the government are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them, and the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the asset concerned in arriving at the carrying amount of the related asset.

Government grants of the nature of promoter's contribution are credited to Capital Reserve and treated as a part of Shareholder's Funds.

2.16 Segment Reporting

Based on the synergies, risks and returns associated with business operations and in terms of Accounting Standard – 17, the Company is predominantly engaged in a single segment of Garments & Hosiery Goods and related services during the year. The analysis of geographical segments is based on the areas in which customers of the Company are located.

2.17 Cash and Cash Equivalents

Cash and cash equivalents for the purposes of Cash Flow Statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

2.18 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
